

VAUGHN BERHOFF

Atlanta, GA | 772-486-9927 | vberhoff@gatech.edu | [linkedin.com/in/vaughn-berhoff](https://www.linkedin.com/in/vaughn-berhoff) | Portfolio: www.vaughnberhoff.com

EDUCATION

Georgia Institute of Technology - BS in Mechanical Engineering and minor in Industrial Design

Atlanta, GA

GPA: 3.63/4.00, **Dean's List:** Fall 2024, Spring 2025

May 2028 (*Expected*)

Relevant Coursework: Computing For Engineers, Statics, Engineering Graphics, Physics I, Physics II

PROFESSIONAL EXPERIENCE

Shurhold Industries

Palm City, FL

Factory Engineer Intern

May 2025 - August 2025

- Engineered a brush bumper installation mechanism, decreasing assembly time by 50%: <https://tinyurl.com/3mufvm8z>
- Improved upon existing processes, including automating a bucket lid assembly, reducing manual labor
- Generated technical drawings in SolidWorks to support documentation and reverse engineering of legacy parts
- Coordinated with vendors: machine shop, plastics manufacturer, and welding facility to source custom components

Lineage Biomedical

Stuart, FL

Prototyping Intern

April 2024 - June 2024

- Collaborated with the lead engineer to develop functional prototypes for a new medical syringe to improve Botox injections
- Used SolidWorks to model components for analysis, reverse engineering, and design documentation

Bikes Plus

Palm City, FL

Lead Mechanic

2020 - 2023

- Repaired, maintained, and built bikes of all types, including their drivetrain, suspension, braking systems, and custom fittings
 - Gained strong customer service skills, respecting individual needs, resulting in increased returning customer rates
 - Oversaw daily shop operations, including processing sales, facilitating repairs, cataloging inventory, and training new hires
-

LEADERSHIP

Georgia Tech. Invention Studio

May 2025 - Present

Prototyping Instructor (PI)

- Trained across 7+ fabrication areas: Metal Shop, CNC, Waterjet, Wood Shop, Laser Cutting, 3D Printing, and Electronics
- Supervise and support student users in safe tool operation, material selection, and DFM strategies

Georgia Tech. Off Road

August 2025 - Present

Suspension Team

- Design A-frames to optimise sag, rebound, and suspension travel during off-road races and field tests
- Communicate with other team leads for manufacturing components and assembly integration with suspension

Outdoor Recreation Georgia Tech. (ORGT)

January 2025 - Present

Whitewater Kayaking Instructor

- Structured custom lessons and challenges to teach new kayakers skills and confidence on the water
 - Co-facilitated safety briefings and logistical planning for off-campus weekend trips, leading groups of 6 downriver
-

PROJECTS

BoneYard - <https://youtu.be/2SjGUHyXE9I>

Drafting, Cardboard Models, Solidworks

- Designed and built a spooky-themed coin-activated pinball machine with a functional multi-ball and tri-flipper system
- Utilized rapid prototyping to develop 2D sketch to 3D model with over 90% recycled cardboard construction
- Integrated mechanical linkages, themed obstacles, and game flow logic to create an interactive experience

Casino Watch

Fusion360, 3D Printer

- Stripped the movement and crown from a watch, inserting it into my newly 3D printed watch case, face, and hands
 - Integrated mechanical and aesthetic elements through precision CAD modeling and part tolerancing
-

SKILLS

Tools & Software: MATLAB, Solidworks, Laser Cutting, Wood & Metal fabrication, Waterjet, 3D Printing (FDM/SLA), CNC Machining, Soldering, Vinyl Cutting, Hand/Power Tools, cardboard prototyping

Engineering Concepts: CAD Modeling, Technical Drawing, Product R&D, Assembly lines, Tolerances, Materials Selection

Soft skills: Communication, Teamwork, Positivity, Peer Instruction, Leadership, Project Planning, Customer Interaction, Safety

Certification: SolidWorks (CSWA Certified), Fusion 360 certification, Advanced Wilderness First Aid (AWFA)
